

Introducing Capricorn Private Wealth

We've taken all our expertise, knowledge and experience from Bank Windhoek and Capricorn Asset Management to create a boutique wealth and investment management experience for high net worth individuals. Individuals like you.

However, no two clients are ever the same and that's where we stand apart from the rest. Our aim is to build meaningful relationships with our valued clients, providing tailor made wealth management strategies, specifically developed for your unique needs. We take your investment goals to heart, with considered advice, innovative banking solutions and the attention to detail to help you reach them.

We're here for you, your business and your family.

Investing in you.

It's what you need.

It's what we deliver.

We don't simply have a one-size-fits-all solution. Our holistic approach towards banking and wealth management starts with us learning more about you, and your needs, getting a clearer understanding before we make any recommendations to you. We then assemble the best team possible. A team with decades of specialist skills and expertise to advise and service you.

Our approach to growing your wealth. **Delivered.**

Our approach is as unique as you. We build our offering by integrating your insightful feedback and working together with you to find banking and financial solutions to protect your assets and grow your wealth.

We Discover

We obtain information regarding your banking and investment needs, we then take the time to understand the various risks you are exposed to and define your succession plans and associated wishes. We agree on the extent of our offer to you, and set financial goals.

We Design Solutions

Our private banker and wealth manager, supported by our subject matter experts, analyse all information obtained from you, and your portfolio, to craft a suitable solution for you. A formal offer will then be made for your consideration.

We Implement

If you accept our offer, our onboarding team will work effortlessly to implement your solution. We know that this process can be frustrating and will do our best to make it as pleasant as possible.

We Maintain and Review

Pro-actively. This is the most critical process and ensures that we provide you with the highest quality of service and advice on an ongoing basis. We go beyond normal transactional services with regular reviews, adjusting our offering and solutions to fit into your changing lifestyle, circumstances and goals.

A close-up, shallow depth-of-field photograph showing a portion of a document. A ruler with purple markings is visible, and a black pen tip is positioned near it. The background is a textured, light-colored surface.

A team working for you. **Delivered.**

When you become our valued client, you not only receive the backing of Namibia's premier financial service provider, you will also gain a team of experienced specialists, all working together towards protecting, and growing your wealth.

You're at the center of what we do.
